

Communist Workers' Organisation Open Meeting Glasgow

The contradictions of the capitalist system continue to bring misery to millions. Permanent warfare with all its “collateral damage” (rape, ruin and massacre), the growing inability of a sixth of the world to feed itself amidst an economy of plenty and the growing insecurity of living conditions even in the so-called advanced capitalist countries. On top of this the environmental damage capitalism inflicts on the world cannot be stopped as long as it is too profitable to carry on polluting. In all these ways the very survival of humanity is at stake. Our open meeting is to go beyond critique. It is intended to give discussion space to those who see that we need to find a way to a practical alternative, hence the title:
